BV Systems signs exclusive licensing agreement with Italy based Indico Technologies

Lenexa, Kansas - May 12, 2017 - BV Systems is proud to announce an exclusive licensing agreement with Indico Technologies, covering products for pacing athletes using a light source. This agreement opens the door for BV Systems to market The LED Rabbit under US patent 9,095,762 B2 and become the sole source in North America for athletic pacing systems.

“We are very excited to enter into this exclusive agreement with Indico Technologies. By securing the patent and technology rights, we can now focus our energy on officially launching The LED Rabbit into the North American market. The expertise that our two companies share in LED Lighting Systems coupled with our passion for sports will spawn many new developments in the future.” Said Barry Vonada, Owner and CEO of BV Systems.

Aside from their athletic pacing systems, BV Systems and Indico Technologies will look to team up on new and creative ways of enhancing the sports world using LED lighting systems. BV Systems and Indico Technologies both share the same goals in giving athletes a more beneficial way of training and evolving their sports in a way that is unimaginable.
